

TA Recruitment System

User Manual

1. Overview

The TA Recruitment System is a browser-based application for managing Teaching Assistant recruitment at BUPT International School. It provides separated portals for applicants (TAs), module organisers (MOs), and administrators, while using a lightweight Java server and JSON-based persistence.

This manual explains how end users interact with the delivered system, using the structure of the original illustrated manual and aligning each feature description with the current codebase in `Test\_Version\_02`.

2. System Access

Role	Portal URL	Purpose
TA	http://localhost:8080/TA/index.html	Browse jobs, apply, manage profile, track results
MO	http://localhost:8080/MO/index.html	Publish jobs, review applicants, use matching tools
Admin	http://localhost:8080/admin/index.html	Oversee operations, manage users, export data

Default demonstration accounts are seeded on first run. The administrator account is `admin / admin123`. Seeded TA and MO accounts use password `123456` unless changed in the running environment.

3. Core Functional Scope

- TA functions: registration, authentication, vacancy browsing, application submission, CV upload, AI-assisted matching, profile management, and notifications.
- MO functions: authentication, job publishing, applicant review, timetable-aware recruitment decisions, AI-assisted comparison, and communications.
- Admin functions: dashboards, job oversight, workload control, user and role management, password reset processing, notifications, data export, and audit logging.

4. TA Portal

This section follows the typical applicant journey from sign-in to submission tracking and profile maintenance.

4.1 Sign In

Open the TA portal and sign in with a seeded student account or a registered account. The TA portal is intended for applicants who browse vacancies, submit applications, and track outcomes.

The image shows a login and registration interface for the BUPT International School TA Recruitment System. At the top, there is a blue icon of a graduation cap. Below it, the text reads "BUPT International School", "TA Recruitment System", and "TA Portal". The interface has two tabs: "Login" (selected) and "Register". Under the "Login" tab, there are two input fields: "Student ID / Email" with a placeholder "Enter your student ID or email" and a user icon, and "Password" with a placeholder "Enter your password", a lock icon, and a "Forgot password?" link. Below these fields is a blue "Login" button. Under the "Register" tab, there is a "Register" button. At the bottom, there is a note: "Default password for seeded TA accounts: 123456." and a section for "Other methods" with icons for social media or alternative login methods.

Figure: Sign In

4.2 Register a New TA Account

New applicants can create an account directly from the TA login page. Registration captures the core identity information required for later applications.

The image shows a registration form for the BUPT International School TA Recruitment System. At the top, there is a blue square logo with a white graduation cap icon. Below the logo, the text "BUPT International School" is in bold black, "TA Recruitment System" is in bold blue, and "TA Portal" is in regular blue. The form itself is a white card with rounded corners. It has two tabs: "Login" and "Register", with "Register" being the active tab. The form contains several input fields: "Full Name" with a person icon, "Email" with an envelope icon, "Student ID" with an ID card icon, "Username" with an @ icon, "Password" with a lock icon, and "Confirm Password" with a lock icon. Each field has a placeholder text. Below the fields is a large blue "Register" button. At the bottom of the card, there is a link "Other methods:" followed by WeChat and Telegram icons. The footer of the page says "© 2026 BUPT International School".

4.3 TA Home Dashboard

After login, the dashboard provides a concise overview of the recruitment status, quick access to open jobs, and recent personal activity.

Figure: TA Home Dashboard

4.4 Status Summary Cards

The dashboard highlights application counts by status so applicants can quickly understand whether submissions are pending, approved, rejected, or withdrawn.

Figure: Status Summary Cards

4.5 Recent Applications

The recent applications panel shows the latest submissions and acts as a shortcut for checking progress without reopening each job posting manually.

Figure: Recent Applications

4.6 Browse Available Jobs

Applicants can open the job list and examine current vacancies published by module organisers.

Figure: Browse Available Jobs

4.7 Open a Job Record

Each job entry includes a dedicated view action for reading the vacancy details in full.

Figure: Open a Job Record

4.8 Review Job Details

The job details page presents teaching duties, requirements, recruitment deadlines, and scheduling information before the applicant proceeds.

Figure: Review Job Details

4.9 Check the Schedule Information

Applicants can inspect the timetable-related details to confirm availability before applying.

Figure: Check the Schedule Information

Figure: Check the Schedule Information

4.10 Open the Application Form

The View and Apply actions lead to the application page where the applicant prepares a submission.

Figure: Open the Application Form

Figure: Open the Application Form

4.11 Start an Application

The application form supports structured submission of personal information and supporting details.

The screenshot shows the 'Application form' page in the BUPT TA System. The left sidebar contains navigation links: Dashboard, TA Recruitment (active), My Applications, Profile, and a MANAGEMENT section with Notifications. The main content area is divided into three sections. The 'Position details' section on the left shows the position as 'Course TA: Machine Learning' and the instructor as 'Zhang'. The 'Applicant' section shows 'Lechen Ning' with ID '231225339'. The 'Personal Information' section contains fields for Full Name (ninglechen), Student ID (2023213346), Phone Number (19991219967), School (Select school), Gender (Male), and Year of Study (Year 3). The 'Cover Letter / Motivation' section has a text area with the placeholder 'Machine Learning Knowledge'.

Figure: Start an Application

4.12 Optional AI Matching

The TA portal includes an optional AI matching workflow to support applicant decision-making before submission.

4.13 Choose a Model

Applicants can select the AI model configuration used for matching analysis.

This screenshot shows the 'AI Match Assistant' section of the application form. It includes a 'Ready to analyse' button and a dropdown menu for selecting an AI model. The dropdown menu is open, showing options: 'gemini-2.5-pro', 'gemini-2.5-pro', 'qwen-plus', and 'gpt-5-mini'. A red box highlights the dropdown menu, and a red arrow points to the 'Run API' button. The 'Cover Letter / Motivation' section is visible above, and the 'Applicant' section is visible on the left.

Figure: Choose a Model

4.14 Run the Matching Request

A dedicated action triggers the AI-assisted analysis based on the available profile and job information.

5. MO Portal

This section describes the organiser-facing workflow for vacancy creation, applicant review, AI-assisted comparison, and communication.

5.1 Sign In

Module organisers access their portal through a dedicated login page separated from TA and Admin functions.

The image shows the login page for the BUPT International School TA Recruitment System MO Portal. At the top, there is a blue square icon with a white graduation cap. Below the icon, the text "BUPT International School" is in bold black, "TA Recruitment System" is in bold blue, and "MO Portal" is in bold blue. The login form is a white rounded rectangle with a blue border. It has two tabs: "Login" (active) and "Register". The "Login" tab contains a "Teacher ID / Email" field with a person icon and the placeholder text "Enter your teacher ID or email". Below this is a "Password" field with a lock icon and the placeholder text "Enter your password". To the right of the password field is a link "Forgot password?". Below the password field is a large blue "Login" button. At the bottom of the form, there is a section "Other methods:" with two icons: a WeChat icon and a QQ icon.

Figure: Sign In

5.2 Register a New MO Account

If self-registration is enabled for the environment, module organisers can create an account from the MO login page.

The image shows a registration form for the BUPT International School TA Recruitment System MO Portal. The form is titled "BUPT International School TA Recruitment System MO Portal" and features a blue header with a graduation cap icon. Below the header, there are two tabs: "Login" and "Register", with "Register" being the active tab. The form contains several input fields: "Full Name" (placeholder: "Your full name"), "Email" (placeholder: "your@email.com"), "Teacher ID" (placeholder: "Enter your teacher ID"), "Username" (placeholder: "Choose a username"), "Password" (placeholder: "Min 6 characters"), and "Confirm Password" (placeholder: "Confirm your password"). A blue "Create Account" button is located below the password fields. At the bottom, there is a section for "Other methods:" with icons for social media or alternative login methods. The footer of the form indicates "© 2026 MO Recruitment System".

Figure: Register a New MO Account

5.3 Create a Job Posting

The posting workflow lets an MO define a vacancy with module context, responsibilities, deadlines, and supporting constraints.

Figure: Create a Job Posting

5.4 Select the Job Type

Different recruitment categories can be chosen to describe the vacancy accurately.

Figure: Select the Job Type

5.5 Set the Application Deadline

The organiser specifies the deadline so that late submissions can be controlled consistently.

Figure: Use the BUPT Timetable Reference

5.8 Add Requirements

Requirement fields make it possible to document eligibility rules, skills, and preferred experience for the role.

Figure: Add Requirements

5.9 Use Templates or Custom Text

The system supports both predefined requirement content and custom free-text additions.

The screenshot shows the 'Add Requirements' interface in the EduMO system. On the left is a sidebar with navigation links: Dashboard, Statistics, Notifications (with a red badge), and Profile Settings. The main content area is titled 'Schedule 2' and includes a 'Course Week (1-17)' dropdown set to '2' and a 'Course Time' selector with options for Monday (11:30-12:15), Tuesday (13:00-13:45), and Wednesday (14:45-15:30). Below this, it states 'Total Working Hours: 3.00 hours'. A blue '+' button is visible. The 'Requirements' section is highlighted with a red border and contains a text input field with the placeholder 'Enter requirement...'. Below the input field are several predefined requirement templates, such as 'I have taken the corresponding courses, achieved excellent grades, and have a solid grasp of the core knowledge points and syllabus of the courses'. At the bottom right are 'Cancel' and 'Publish Now' buttons. The user's profile 'Ning MO' is visible in the bottom left corner.

Figure: Use Templates or Custom Text

5.10 Manage Existing Jobs

Published jobs remain editable and reviewable from the job management area.

The screenshot shows the 'Manage Existing Jobs' interface in the EduMO system. The top navigation bar includes 'Management > Job List' and a user profile 'Ning MO'. The main dashboard displays four summary cards: 'Total Jobs: 3', 'Open Jobs: 3', 'Total Applications: 5', and 'Total Approved: 0'. Below these is the 'Recruitment Dashboard' with a search bar and a 'Post New Job' button. Three job listings are shown, each with a 'Manage' button highlighted by a red box: 'Course TA: Computer Networks' (2 Applicants, 0 approved, Deadline: 7 Jun 2026, Quota: 2), 'Lab TA: Artificial Intelligence' (2 Applicants, 0 approved, Deadline: 8 Jun 2026, Quota: 3), and 'Final Exam TA: Human-Computer Interaction' (1 Applicants, 0 approved, Deadline: 9 Jun 2026, Quota: 1). A 'Recruitment Tips' box is located in the bottom left corner. The user's profile 'Ning MO' is visible in the bottom left corner.

Figure: Manage Existing Jobs

5.11 View Applicants

The MO can open a posting and inspect the list of applicants associated with that vacancy.

Figure: View Applicants

Figure: View Applicants

5.12 Use the AI Matching Tool

The portal provides an AI-assisted analysis tool to help compare applicants against the job requirements.

Figure: Use the AI Matching Tool

Figure: Use the AI Matching Tool

5.13 Read Matching Results

The matching result view summarizes the comparative analysis for the organiser.

Figure: Read Matching Results

5.14 Keep the Analysis Record

Generated analysis remains available in the system so the organiser can revisit prior evaluation output.

Figure: Keep the Analysis Record

5.15 Open Full Applicant Details

A detail view exposes more complete application information for final decision-making.

Figure: View Statistics

Figure: View Statistics

5.18 Read Messages

Incoming system messages and updates are accessible from the organiser interface.

Figure: Read Messages

5.19 Contact the Administrator

The organiser can initiate communication with the administrator from the portal when support is required.

Figure: Contact the Administrator

5.20 Open Outlook

An email shortcut launches the external mail client for direct communication.

Figure: Open Outlook

5.21 Profile and Password Management

The organiser can maintain account details and update the account password.

6.25 Filter and Export

Many admin-facing reports can be filtered and exported for evidence, audit, or sharing.

Figure: Filter and Export

6.26 Download Data

Data export functions provide downloadable output for offline review.

Figure: Download Data

6.27 Broadcast Notifications

Administrators can send announcements to users in bulk through the notification module.

7. Operating Notes

- Run the project from the root folder so the server can resolve the `data/` and `uploads/` directories correctly.
- The delivered implementation uses Java 11+ and JSON files instead of a database.
- Administrative settings such as workload thresholds, recruitment windows, and password reset defaults are maintained through the Admin portal or `data/settings.json`.
- Password reset email is optional and depends on SMTP settings being configured.
- The application is intended to be opened in a modern browser such as Chrome, Edge, or Firefox.

8. Recommended End-to-End Workflow

1. An MO creates a job posting and publishes the vacancy with dates, requirements, and timetable-aware details.
2. A TA logs in, reviews the vacancy, optionally uses the AI matching assistant, uploads a CV, and submits the application.
3. The MO inspects applicants, compares them with AI support if needed, and makes a selection decision.
4. The Admin monitors workload, user activity, password reset requests, notifications, exports, and audit evidence.
